A special thank you to all the very generous donors of the prizes!

Also: A couple not so good topics of interest regarding the American Legion outdoor archery range. I have been told that the "Day with Wildlife" in April will be held in Mexico, MO. this year. Not only that but also the Maverick Baseball team has struck a deal with the powers that be to build their Stadium/field on the A. Legion property which will affect the archery range. This sounds like a done deal. We will keep you up to date when we get details.

Sincerely, Tim Hennessy/secretary
