

CAA Newsletter November 17, 2008

Sorry so late on getting out this note, but it is hunting season you know!

One of our long time and distinguished members, Kelly Veach, generously smoked the meat for our meal which was outstanding. Thanks, Kelly you obviously have the art perfected!

We had a pretty good turn out for the meeting/meal at I'm guessing at over 15 or so. We appreciate the (DDI) Dip Doctors Inc. for joining us and giving us the latest insight on the new Water Transfer printing which is truly revolutionary and "plain cool". For those who missed the meeting, this service they offer is putting one of many patterns, such as a common camo pattern on almost anything. From guns, bows, vehicle wheel rims, you name it, they can probably do it. This is extremely durable and mostly permanent. PH#875-7903 (DDI) generously donated a \$40 gift Cert. for our Annual Game Dinner Contest.

Put on your thinking hats for next years fundraising!

Dues are due at the end of the year.

Hog hunt deposits of 200 are also due ASAP.

Email this years pictures in and post them on the Powder horn bulletin board.
